For U. S. Representative,
L. C. MURPHY,
For Sheriff,
JONATHAN B. ROWELL.

Blaine's Sugar Theory.

The McKinley bill, which provides for free sugar, is now before the Senate. Public attention has been especially attracted to it by the intervention of Mr. Blaine's opinions, not alone by state papers, but by letter, as to the advisability of putting sugar back on the tariff list.

Mr. Blaine's interference at this time has given very great comfort and hope to the free traders of all political parties. They believe that Mr. Blaine's ideas will force the Republican party to renege on sugar to the tariff list in the McKinley bill, which would serve to reopen and possibly defeat all tariff legislation at this session.

The facts in this case do not warrant any such hope. It seems that Mr. Blaine has the confidence of a large following of Republicans. These followers would be glad to see him elevated to the presidency, but they are Republicans and when the Republican party is on trial, as it now is on matters of legislation, they will weigh any opinion on Mr. Blaine's side with the same care and precision that they would apply to the opinion of any other leading Republican.

In doing this, however, it is not to be understood that they are not in the mind of every Republican who respects upon Mr. Blaine's proposition to renege upon the tariff list for renege on renege purposes.

The first question that presents itself is this: It is important that sugar should be returned on the tariff list, for the purpose of securing favorable renege arrangements, as Mr. Blaine seems to think, why did not Mr. Blaine present the importance of the matter to the Committee on Ways and Means when it was considering the tariff?

He was then acquainted with all the facts as he knew. There is no evidence, however, to show that he did not try the matter before the committee, but if he did it is probable that that committee did not agree with him in his view of the matter.

We have been collecting duties from sugar amounting to \$5,000,000 annually. The McKinley bill now has the duty on sugar reduced to 10 cents per cwt. It is proposed to renege this duty because it operates as a tax on our people on account of the well established fact that, up to this time, sugar has not been produced in this country in competing quantities, and hence as a protective duty the sugar duty has been inconsistent and illogical, from a protection to our sugar industry the present tariff is acknowledged by all classes of political economists to be a failure.

In asking that the tariff of \$5,000,000 annually be restored, Mr. Blaine offers no guarantee that if the government will renege it he will renege it, indeed the chances are that sugar cannot continue important figure in securing concessions from sugar raising nations, for reasons that we have already hinted at. The small amount of sugar we raise is not sufficient to amount, in our market, to a competitor with foreign sugar, hence the duty is added to the cost of the imported article and the foreign producer loses nothing. If the duty is removed the foreign producer will have no duty to add to the cost of sugar and he will lose nothing. It makes no difference whether the duty is on or off to the foreign sugar raiser. With these undeniable facts before us it strikes us that the sugar duty would be a poor thing to go into the field of diplomacy for trading purposes, and the Republican party could not afford to follow Mr. Blaine on such a proposition and they will not do so.

Our people use coffee and produce more. They use tea and produce none. They use sugar and produce little. A duty on either of these articles is consequently a revenue duty and a tax on the consumer. If a tax on the consumer, then our market costs the consumer, the tax on the coffee raiser no tax, whether the product comes from free or taxed. If our market costs these products, we would the consistency of offering the market, which now costs them nothing, and seeking them in lieu thereof to grant trade concessions on their part, come in the rule of trade do not proceed on the theory of giving something for nothing.

Prof. S. A. FORTNES, of the University of Illinois, and also state entomologist, is now on his way to the Yellowstone Park, where, under the direction of the government, he and Mr. C. W. Rolfe, who is at the Park, will make a survey of the waters of that section. They will be occupied the entire vacation and perhaps longer in doing the work.

STEVENS' wife's estate is said to be worth \$500,000. It has been wisely managed, the first tenant after her death going only last week.

Diarrhea, Dysentery, Cholera, Phlegm, Malaria, Typhoid, and nearly all the other fatal diseases, induced by the Western Sanitary Commission, U. S. Army officers, hospital physicians, steamboat officers, etc. Taken in time a sure preventive of all these diseases.

FIVE LIVES LOST.

A Large Hotel Burned at
Quebec, Canada.

Pierre Meranda and Family With
the Lost.

Special to the REPUBLICAN.
QUEBEC, CAN., July 17.—Hotel burned here this morning. Five persons, Pierre Meranda, wife and three children, were burned to death. It is thought that others perished with them.

Our free traders are not doing their full duty. A mass meeting has been held in Sheffield, England, which declared open hostility to the McKinley bill because its provisions, if enacted into law, would seriously affect the interests of Sheffield. Sheffield sent about \$200,000 worth of cutlery to the United States in 1889, and the McKinley bill proposes to stop that sort of thing. American and Sheffield free traders are natural allies and the American and should swiftly endorse the declarations of the Sheffield meeting.

Senator FRY'S letter to Mr. Blaine, published to-day, practically asks Mr. Blaine what guarantee there is, in case sugar is restored to the tariff list for renege purposes, that other nations will waive such duties in lieu of free sugar as are suggested in his recent letter to Mr. FRY. This inquiry the Chicago Tribune regards as impertinent. Congress will probably take another and different view of it.

Tax completed returns in Chicago show that city to have 1,101,263 population, which puts it 51,282 ahead of Philadelphia.

Railway News.
It is reported that the Pennsylvania Railroad is about to purchase the Indianapolis, Decatur and Western. The chief officers of the I. D. & W. were in Decatur last night and were in consultation with Agent Durwin and local patrons of the line. If they had any knowledge of the rumored sale they failed to reveal it.

The Illinois Central has awarded a contract for twenty-five of the heaviest engines ever used on the road. Each locomotive will weigh 104,000 pounds.

The officers of the Washburn are by no means discouraged at the falling off in the earnings of that road. They say that under the reorganization the fixed charges have been reduced so that there will be a clear surplus of \$500,000 for the fiscal year after meeting all expenses.

The Minnesota State Farmers' Alliance.
ST. PAUL, Minn., July 17.—At the afternoon session of the Farmers' Alliance, there was a warm debate over a motion that the Alliance should take independent political action in the campaign and place a State ticket in the field. There was considerable opposition to such action on several prominent delegates contending that the better course would be to declare a platform and await the developments of the contest between the two principal parties. The motion, however, was carried by a majority of 184.

After the committee on credentials reported, a committee was appointed to confer with a delegation from the Labor Union, which was in attendance. The result of the conference will be reported at today's session. It is not probable that any understanding will be agreed upon, as there is a strong element in the Alliance as well as in the Labor party opposed to a union of action.

The first informal ballot on a nomination for Governor was taken and resulted in 174 being cast for Knute Nelson, 167 for Brooks, 14 for Ignatius Donnelly, and others scattering. The vote for Donnelly has surprised his friends who thought he was sure to lead. Nelson has repeatedly declared his intention to keep out of the field. After this ballot, which simply indicates the temper of the delegates and is not decisive, the convention adjourned.

The Tennessee Democrats.
NASHVILLE, Tenn., July 17.—The State Democratic convention took place yesterday without result. Patterson and Baxter both gained a few votes, taken mostly from Taylor. Buchanan, the farmers' candidate, still leads, but has never reached his first ballot. The probabilities are that to-day will witness the close and the nomination, possibly, of an outside man.

A MURDEROUS INDIAN.
He Raised the War-Hoop in the Ohio Penitentiary with Bloody Results.
COLUMBUS, O., July 17.—Yesterday afternoon James Lacey, an Indian from the Indian Territory serving a ten years sentence in the Ohio penitentiary for manslaughter, grabbed an axe and began to tomahawk his companions. He aimed upon the head of Jacob Gross, a colored prisoner, who will probably die out on the head. Ted Cunningham, broke the shoulder of Charles Greaves, and cut into the top of Michael O'Hara's head. The deputy warden hearing the Indian's yell, rushed in and with the aid of his companions, he killed the assassin, took his foot and locked him in a cell. The murderous Indian is thought to be insane.

The Great Clock-Makers' Lock-Out Virtually Over.
NEW YORK, July 17.—The great clock-makers' lock-out is virtually over. At a conference of the various committees yesterday it was agreed to sign a contract binding the manufacturers to take back all their union hands and to discharge any man now in their employ who would not join the union. There was not, however, perfect harmony, for the clock operators, though their representative refused to sign the agreement, unless the manufacturers consented to an unconditional discharge of the non-union workmen. This the manufacturers refused to do, so the clock operators still remain out while the cutters and contractors, having signed the agreement, will return to work at once, they having gained nearly all their demands from their employers.

A Seven-Year-Old Patriotic.
BROOKLYN, July 17.—Little Freddie Rappold, the son of Jacob Rappold, a baker at No. 717 Myrtle avenue, was shot in the right eye and killed yesterday morning by his seven-year-old brother George. Fred obtained a revolver from an open trunk which George took from him. He then, pointing playfully at Fred, asked him to look into the barrel and see if it was loaded. While in the act of doing so the pistol exploded and the ball entered Fred's right eye.

Sold to an English Syndicate.
FORT DODGE, Ia., July 17.—Yesterday an English syndicate bought, through Rosenbaum Bros., of Chicago, all the elevators owned by the firm of Gregory & Son, one of the largest grain-trading firms of the Northwest. The elevators are located all through Northwestern Iowa. The firm controls a large share of the grain trade of that part of the State. The elevators in this city are at Fort Dodge, Clarion, Vincent and Lehigh.

Pugilist.
BLOOMINGTON, Ill., July 17.—Billy Meyer has again made up his dispute with Alf Kennedy, of this city. The latter has been in challenge to match Meyer against Andy Bowen, or Jack McAuliffe to fight for the "Police Gazette" champion belt, \$2,500 a side and the light-weight championship of America. Meyer will fight Bowen again in New Orleans if the Audubon Club will put up a purse.

The Fastest Time by the Long Route.
NEW YORK, July 17.—The White Star steamship Tarentine arrived at Sandy Hook at 7:15 a. m. yesterday, having made the run from Rocher's Point, by the long route, 2,838 miles, in 5 days, 21 hours and 54 minutes. This is equal to or better than the 3 days, 18 hours and 15 minutes trip of the City of Paris, the latter coming by the short route, 2,788 miles.

FROM THE OLD WORLD.

The Expansive Bustle as an Aid to Smuggling.

MOONEY REFUSED BY MAIDS OF HONOR.

The Queen's Contribution to the Victoria Nyanza Steamer—Stamboul's Demands—Movable Barracks—Chlorine Still Prevalent in Spain.

SMUGGLING ARRESTED.
LONDON, July 16.—On the arrival of the steamship Majestic from New York at Queenstown, to-day, four of her passengers were arrested by the customs officials for smuggling. The arrested were all women and had concealed in their bustles parcels of tea, tobacco, spirits, etc. The contraband goods were seized and the women locked up for examination.

MAGNANIMOUS MAIDS.
The maids of honor to the Queen who by the terms of the will of the late Lord Sackville inherited about \$50,000, waived their claims in favor of the maids of honor. Through the generosity of these ladies the new Lord Sackville estate, the Victoria Nyanza Steamer, becomes the wealthiest by many thousand pounds.

THE QUEEN'S DONATION.
LONDON, July 17.—The Queen has donated \$30 to the fund for the construction of the Victoria Nyanza Steamer.

STANLEY CONVALESCING.
LONDON, July 16.—Mr. Stanley is making rapid progress toward complete recovery. Yesterday he drove through the New Forest and returned much benefited by his outing. He was accompanied by Mrs. Stanley and Surgeon Parke. The drive occupied three hours.

STAMBOUL'S DEMAND.
LONDON, July 17.—Prime Minister Stamboul, who is the virtual dictator of Bulgaria, is said to be preparing an ultimatum to the Sultan, demanding that he form a new cabinet, to the effect that if he fails to do so the effect will be to recognize the independence of the Bulgarian provinces in Macedonia. The Sultan, according to advices from Constantinople, has well-grounded suspicions that the Bulgarians mean to annex Macedonia at the first opportunity.

MOVABLE BARRACKS.
The German Government has adopted a system of movable barracks, which will greatly improve the quarters of the troops in frequent motion.

BRECHARD'S DISPUTE.
France and Brazil have agreed to refer to a joint commission the settlement of the boundary line between French Guiana and the Brazilian Republic. The difference is of old standing, having arisen when Portugal ceded the Brazil and continued without settlement during the empire.

CHOLERA AGAIN PREVALENT.
VIENNA, July 17.—The Vienna Board of Health is informed that cholera has again become prevalent in provinces of Valencia and Alicante, Spain.

BERLIN, July 17.—Empress Frederick is sojourning at Tivoli.

WASHINGTON NEWS.
No Fear of a Defeat.
WASHINGTON, July 17.—Representative Cannon, chairman of the House appropriations committee, is out with a statement that the government will not be able to pay the interest on the public debt, and that the government will be forced to raise money by the sale of the public debt.

The Ordinary revenues of the government for the fiscal year ended June 30, 1890, are reported to be \$42,000,000. Under existing laws there is no reason to anticipate a less sum from the ordinary revenues during 1891.

The postal revenues for 1891 are estimated by the Postmaster General at \$55,414,000, making a total of \$97,414,000. Deducting operating expenses, the net revenue of \$35,000,000 there will be, Mr. Cannon says, a surplus of \$117,497,000, which is more than ample to meet the requirements of the new pension law and the reduction of taxation from the enactment of the McKinley bill, estimated at \$100,000,000.

The St. Paul and Minneapolis Census Returns.
WASHINGTON, July 17.—Attorney-General Miller was at the Census-office yesterday, and had a conference with Superintendent Porter relative to the alleged fraudulent census returns from the cities of St. Paul and Minneapolis.

Attorney-General Miller, it is said, announced an intention of prosecuting with vigor all those who had a hand in the attempt made to falsify the returns from these cities.

The Limited Post and Telegraph Bill.
WASHINGTON, July 17.—Mr. Sawyer introduced in the Senate yesterday a bill proposed by the Postmaster General to carry out his ideas for the establishment of a limited post and telegraph service. The bill authorizes the Postmaster General to make contracts for a year or more for the transmission of postal telegrams at specified rates, which are for twenty words or less within a State or between stations less than 300 miles apart, fifteen cents between stations not less than 300 miles apart, and ten cents between stations not less than 600 miles apart, including Illinois, Kentucky, Tennessee and Mississippi, twenty-five cents west of these States twenty-five cents, etc. Telegrams are to be transmitted in order of filing, except that priority is to be given Government telegrams. The text of the bill was printed some time ago.

Chicago's Phenomenal Growth.
CHICAGO, July 17.—Superintendent Porter ordered a survey from Superintendent Gilbert the final figures of the population of Chicago, which place the population of that city at 1,101,263. In 1880, the official count showed a population of 503,185 in Chicago.

GRATITUDE INJURED.
The Remains of General John C. Fremont Placed in Temporary Sepulcher.
NEW YORK, July 17.—The funeral services of the late General John C. Fremont, ordered yesterday morning at ten o'clock at St. Ignace Church, No. 50 West Fourth street.

Long before that hour the body of the officer was filled with the friends of the dead General. Men prominent in both civil and military circles from all parts of the United States were present.

THE WORLD'S FAIR.

Meeting of the S. b-Committee on Permanent Organization.

TAKING COUNSEL OF OLDER HEADS.

Mr. Cochran Gives the Committee the Benefit of Experience Gained During His Connection With the Centennial Exhibition.

PHILADELPHIA, July 17.—The sub-committee on permanent organization of the World's Fair Commission met yesterday morning at the Continental Hotel. The following members of the committee were present: Judge J. A. McKim, of Kentucky, chairman of the committee; A. T. Bwing, of Chicago; J. H. Brosin, of New York; P. A. Waldner, of this city, and M. B. Harrison, of Duluth.

Thomas Cochran, who was chairman of the finance committee to the Centennial Exhibition, met the committee and gave them the benefit of his experience in that undertaking.

Mr. Wiedner stated that he had had an interview in New York with General Goshorn, who was director-general of the Centennial Exhibition, and that General Goshorn said he would be here on Monday to meet the Commission.

Mr. Wiedner also said that he informed Mr. Goshorn that the fair of 1893 would be the largest fair of the kind ever held in the world, and that the Commission will be able to prevail upon him to undertake the work.

The meeting yesterday morning lasted two hours and Mr. Cochran gave the committee a general idea of the manner in which the Centennial Exhibition was conducted. In the course of conversation the question of keeping the fair open Sunday arose. On this question the committee was unanimous that the exhibition should remain open on the first day of the week.

Mr. Cochran particularly impressed upon the committee the necessity of giving the director-general of the fair absolute authority and also the value of time in preparing for the exhibition.

THE "BEAR" FLAG AT HALF-MAST.
BOSTON, July 17.—The "Bear" flag that General Fremont first hoisted over the conquered Monterey in 1847 is flying at half-mast at the headquarters of the Associated Board of Port-waiters, and will so remain until the Pathe-finder's body is committed to the grave.

REFUSED TO BE BULDOZED.
And Enforced His Refusal With a Breach-Loader.
BRADFORD, Pa., July 17.—At noon yesterday a shooting party took place at Johnson's mill, near this place in which four Italians were wounded. Lewis Maroni came here from New York recently with a gang of men to work on the new Allegheny & Kinzua railroad. Yesterday five Italians came to Maroni's house and demanded that he join them in a strike. Maroni refused to do this, whereupon the delegation stated that they would compel him and his men to join the strike. At this point the five Italians rushed at Mr. Maroni. He managed to break away from them and secured his breach-loading shotgun. He fired them with besotted. The names of the injured are: Francesco Delotto, Giovanni Preciotti, Vincenzo Paguorolla. The latter was given a bad dose of shot in the back of his head. The man was taken to the hospital, where fifteen bullets were extracted from them.

Murder and Attempted Cremation.
MAINE, July 17.—The Belding Soda-works were burned yesterday morning. The remains of George Ball, the manager of the works, were found in the ruins. His head bore marks of having been struck by some heavy weapon, and it is thought he was murdered by thieves who robbed the safe, and then set fire to the building.

WOMEN cannot express the gratitude which people feel for the benefit done them by the use of Ayer's Sarsaparilla. Long standing cases of rheumatism yield to this remedy, when all others fail to give relief. This medicine thoroughly expels the poison from the blood.

At the meeting of the Baptist church congregation held last night the question of rented or free pews was finally settled, with Henry Smith in the chair. Since the pews were rented new members have entered the church, and these naturally objected to the rent system which deprived them of desirable locations. A motion to adjourn was declared lost and subsequently the congregation voted to make the pews free. Now when you enter the church you may sit where you

5000 AT THE RACES.

Wednesday Was a Big Day for Dollars and Enjoyment.

Summary of the Contests—The Winners—The Races To-Day.

The stockholders of the Decatur Trotting Association thus far have been encouraged in a substantial manner in the enterprise of giving race meetings at the new park. The meeting is no longer an experiment. It is a pronounced success, and assures a larger attendance of fast horses and people at the September meeting. Four to five thousand people crowded the grand stand and open space yesterday afternoon, and all appeared to enjoy the events. The closeness of some of the contests awakened infectious enthusiasm. Even the children caught on, and one little shaver was heard to exclaim as May King came down the home stretch in the lead: "Oh, papa! there comes my horse!" and the little fellow was as happy over the victory as if he held a fat pool check. It was a frequent occurrence to see nearly everybody in the grand stand rise to their feet as the speedy horses made the last turn on the home stretch.

The weather is all that could be desired—a little hot, but what else are we to expect in July?

Over one hundred buggies, phaetons and carriages were within the enclosure, each having its separate load of female loveliness in becoming costumes and attended by gallant gents. In the grand stand many many pure parties. The wiser parties came out with lunches and they were in no special hurry to leave for the city. They partook of the cold refreshments and lingered until the prolonged pace closed at 7:35.

The crowd was good-natured all afternoon, and there was no special disappointment among the better except with those who had unfortunately placed their money on Pilot Gift. This horse was generally regarded as a sure winner, as he had paced a mile in 2:19 1/2 at Springfield, but he couldn't get off right, and was handicapped in the race because of the bad starts. The horse looks training, and yet this is his second year on the turf. Barry had him out.

The pool sellers got in their work yesterday. Having rigged up additional stands in front of the grand stand in the "Wall street" section, the tip young men had no trouble in exchanging pasteboards for \$5 and \$10 bills as often as they could make the transfers. Bets were taken on the races and also on the heats.
